

JASSIM ABDUL RAZAK

FLUTTER DEVELOPER

PROFILE

As a self-taught Flutter developer, I am dedicated to crafting mobile applications that offer users an exceptional experience. Proficient in Dart programming language, I have honed expertise in various areas including Provider state management, integrating REST APIs, and leveraging Firebase functionalities. My experience extends to developing applications using the Flutter framework. I take pride in delivering high-quality, efficient code through a collaborative spirit and adeptness in both independent and team-oriented work

EDUCATION

Malabar College of Advanced Studies
Bachelor of Computer Applications

2020 - 2023

A.R.N.H.S.S Chendappuraya
Computer Science

2018 - 2020

TECHNICAL SKILLS

- Dart
- Flutter
- Hive
- Provider
- REST- API
- Firebase

SOFT SKILLS

- Collaboration
- Communication
- Problem-Solving
- Critical thinking

PROFESSIONAL EXPERIENCE

Bridgeon Solution L.L.P
Flutter Developer intern

June 2023 - Present

During my internship as a Flutter Developer, I honed my expertise in Flutter framework and Dart programming language, leveraging advanced techniques in Provider for state management. I adeptly integrated REST APIs, harnessing their power to drive dynamic data within applications. Additionally, I gained practical experience in Firebase, implementing its functionalities for real-time database management. I successfully delivered some Flutter projects, showcasing my ability to design, develop, and deploy scalable mobile applications.

PROJECTS

News Buddy

Daily News App [Github](#) ♦ [Linkedin](#)

The app is designed to bring the latest news straight to your fingertips, offering a seamless user experience while exploring various news sources.

- **HTTP Webservice Integration**
- **Elegant and simple UI**
- **Built with Flutter**

Recipe Book

Recipe storing App [Google play](#) ♦ [Github](#)

In this app, users can seamlessly store their favorite recipes, edit them to perfection, and even delete unwanted ones, making the recipe management experience effortless and intuitive.

One of the standout features of this project is the comprehensive Total Cost Chart screen, which provides users with valuable insights into their recipe expenses, making meal planning and budgeting a breeze.

- **Hive Integration**
- **Provider State management**
- **User-friendly Interface**

Movie Bucket

Movie details App [Github](#) ♦

Offering users an immersive experience, this app brings movie buffs closer to their favorite films! With comprehensive movie details, including cast, synopsis, and similar movies, users can dive deep into their cinematic favorites. [Linkedin](#)

- **Dio Web service Integration**
- **Provider State management**
- **Built with Flutter**

Weather App

Weather info App [Github](#) ♦ [Linkedin](#)

This app provides users with the latest realtime weather information of any location including current location weather info also

- **HTTP Webservice Integration**
- **Minimal UI**
- **Geo Locator to get current location**
- **Realtime Weather Info**

Chat Hub

Messaging App [Github](#) ♦

its a dynamic messaging application created using Flutter for the frontend and Firebase for the backend. Employed Provider for state management ensuring a smooth and responsive user experience.

- **Firebase Cloud storage**
- **Firebase Authentication**
- **Firebase Firestore**
- **Provider State management**
- **Stunning UI**

INTERESTS

- **UI Designing**
- **Watching Movies**
- **Travelling**

LANGUAGES

- **Malayalam (Native)**
- **English**
